The Falcon community is much more than the Marketplace and Meridian Ranch! It includes urban residential areas, rural residential areas, commercial and retail activities, farm land, and more. That diversity is what gives the area its unique identity as a place where rural and urban lifestyles come together harmoniously. The boundaries were chosen carefully to capture Falcon's character but not overlap with other communities of interest such as Colorado Springs, Black Forest, Peterson SFB and Schriever AFB, and the large acre properties and small towns to the east.
