

Public Open House

Williams Creek Generating Station

We're hosting an open house for our proposed Williams Creek Generating Station, a new electric generation facility southeast of Fountain in unincorporated El Paso County.

Tuesday, Sept. 15, 2026

4:30 to 6:30 p.m.

Fountain Library

Fountain Meeting Room

230 S. Main Street

Drop in any time. No registration required.

Colorado Springs Utilities

It's how we're all connected

Find Out More and Have Your Say

The project would provide approximately 400 megawatts of electric generation capacity through 10 natural gas-fueled generating units.

Additional generation will help maintain electric reliability for the region and strengthen energy resilience for local communities and military installations.

At the open house, learn more about:

- Project details
- Williams Creek site selection
- Project timelines
- Construction activities
