

BUSINESS PROGRAMS IN ACTION

In summer of 2026, we proudly welcomed ACCO Engineered Systems, Bliss Mobil USA, and Project Tree to El Paso County. Through the **Pikes Peak Enterprise Zone Program**, these businesses qualify for valuable, performance-based state income tax credits for:

- Creating New Jobs
- Covering Job Training Expenses
- Investing in Equipment
- Providing Employee Health Insurance
- Engaging in Research & Development

The Pikes Peak Enterprise Zone Program, managed by El Paso County's Economic Development Division, encourages private business investment and job growth in distressed areas of El Paso and Teller counties by offering state income tax credits for certain qualifying activities.
