

Don't Let a "Preventive" Colonoscopy Become a Surprise Bill

Get the care you need—with no surprise costs—when you use your Lantern benefit from El Paso County. When you're 45+, a routine colonoscopy is usually free—but only if you're sent home with a clean bill of health.

Did you know: If the doctor treats a problem, like removing a polyp, you could get a surprise bill.

Make the Most of Your Benefits

Here's the good news: When you see a specialist in Lantern's network for your colonoscopy, you won't pay extra even if you need a polyp removed. Everything is included.

- No surprise charges
- Board-certified surgeons chosen for experience and quality outcomes
- Help every step of the way, including with scheduling appointments
