2. **CONTENTS OF OFFER**

2.1 **General Conditions.** Consultants are required to submit their Offers in accordance with the following expressed conditions:

2.1.1 Consultants shall make all investigations necessary to thoroughly inform themselves regarding the plant and facilities affected by the delivery of materials and equipment as required by the conditions of the Solicitation. No plea of ignorance by the Consultant of conditions that exist or that may hereafter exist as a result of failure to fulfill the requirements of the contract documents will be accepted as the basis for varying the requirements or the compensation to the Consultant.

2.1.2 Consultants are advised that all County contracts are subject to all legal requirements contained in County ordinances, the Contracts and Procurement policies and state and federal statutes. When conflicts between the Solicitation and these legal documents occur, the highest authority will prevail.

2.1.3 Consultants are required to state exactly what they intend to furnish to the County via this Solicitation and must indicate any variances to the terms, conditions, and specifications of this Solicitation no matter how slight. If variations are not stated in the Consultant's Offer, it shall be construed that the Consultant's Offer fully complies with all conditions identified in this Solicitation.

2.1.4 El Paso County intends and expects that the contracting processes of the County and its Consultants provide equal opportunity without regard to race, color, religion, sex, national origin, age, disability, or any other characteristic protected by law. Accordingly, the Consultant shall not discriminate on any of the foregoing grounds in the performance of the contract.

2.1.5 All Offers and other materials submitted in response to this Solicitation shall become the property of the County and will be a matter of public record. Consultants must identify, in writing, all copyrighted material, trade secrets and/or other proprietary information that it claims are exempt from disclosure under the Open Records Act.

Any Consultant claiming an exemption must identify the specific provision of the Open Records Act that provides an exemption from disclosure for each item that the Consultant claims is not subject to disclosure and must submit an additional original copy of the Response with each exempt item clearly redacted. Any Consultant claiming an exemption must also state in its Response that the Consultant agrees to defend, indemnify, and hold harmless the County and its officers and employees from any action brought against the

County for its refusal to disclose any purportedly exempt material, trade secrets and other proprietary information to any party making a request therefore.

Any Consultant who fails to include an exemption statement along with the additional redacted copy of the Response shall be deemed to have waived any right to an exemption from disclosure as provided by the Open Records Act.

2.2 Clarification and Modifications in Terms and Conditions

2.2.1 Where there appear to be variances or conflicts between the General Terms and Conditions, the Special Terms and Conditions and the specifications outlined in this Solicitation, the specifications then the Special Terms and Conditions will prevail.

2.2.2 If any Consultant contemplating submitting an Offer under this Solicitation is in doubt as to the true meaning of the specifications, the Consultant must submit a **written request** for clarification to the County's Contracts and Procurement Manager or their designee as outlined in the Special Terms and Conditions. The Consultant submitting the request shall be responsible for ensuring that the request is received by the County's buyer by the date and time listed in the Schedule of Activities for submitting question(s) or as stated in the Special Terms and Conditions.

Any official interpretation of this Solicitation must be made by the County's Contracts and Procurement Manager or their designee. The County shall not be responsible for interpretations offered by other employees of the County.

The County shall issue a written addendum if substantial changes which impact the technical submission of Offers are required. Addenda will be posted on the Rocky Mountain E-Purchasing System web site (<http://www.rockymountainbidsystem.com>) as well as the El Paso County web site (<http://www.elpasoco.com>). Consultants are responsible for either revisiting one of these websites prior to the due date or contacting the Contracts and Procurement Manager or their designee named on the Cover Sheet of this Solicitation to ensure that they have any addenda which may have been issued after the initial download.

The Consultant shall certify its acknowledgment of the addendum by signing the addendum and returning it with its Offer. In the event of conflict with the original contract documents, addenda shall govern all other contract documents to the extent specified. Subsequent addenda shall govern over prior addenda only to the extent specified.

2.3 Prices Contained in Offer-Discounts, Taxes, Collusion

2.3.1 Consultants may offer a cash discount for prompt payment. Discounts may be considered in determining the lowest net cost for the evaluation of Offers; discounts for periods of less than twenty days, however, will not be considered in making the award. If the Consultant does not enter a percentage discount, it is hereby understood and agreed that the payment terms shall be net thirty days, effective on the date that the County receives an accurate invoice or accepts the products, whichever is the later date. Payment is deemed to be made on the date of the mailing of the check.

2.3.2 Consultants shall not include federal, state, or local excise or sales taxes in prices offered, as the County is exempt from payment of such taxes. Materials purchased directly by the Consultant in conjunction with this contract will, however, be subject to applicable state and local sales taxes. These taxes shall be borne by the Consultant. Under no

All work shall be performed in accordance with good commercial practice and the timeline and milestones shall be adhered to by the successful Consultant, except in such cases where the timeline will be delayed due to acts of God, strikes, or other causes beyond the control of the Consultant. In these cases, the Consultant shall notify the County of the delays in advance of the original timeline so that a revised timeline can be negotiated. Should the Consultant to whom the contract is awarded fail to complete the work within the timeline as stated in its Response or as subsequently approved, it is hereby agreed and understood that the County reserves the right to cancel the contract with the Consultant and to secure the services of another Consultant to complete the work. If the County exercises this right, the County shall be responsible for reimbursing the Consultant for work which was completed and found acceptable to the County in accordance with the Specifications. In addition, the County may, at its sole discretion, request payment from the Consultant, through an invoice or credit memo, for any additional costs over and beyond the original price which were incurred by the County as a result of having to secure the services of another Consultant.
- 27. DEFICIENCIES IN WORK TO BE CORRECTED BY CONSULTANT:** The successful Consultant shall promptly correct all deficiencies in service and/or any service that fails to conform to the Contract Documents. All corrections shall be made immediately after such deficiencies and/or non-conformances are verbally reported to the Consultant by the County's Project Manager. The Consultant shall bear all costs of correcting such rejected services. If the Consultant fails to correct the service within the period specified in this Solicitation, the County reserves the right to place the Consultant in default of its contractual obligations, obtain the services of another Consultant and charge the Consultant for these costs, either through a deduction from the final payment over to the Consultant or through invoicing.
- 28. METHOD OF PAYMENT - MONTHLY INVOICES:** The successful Consultant(s) shall submit monthly invoices. These invoices shall be submitted to the County's Project Manager. The invoice shall reflect the appropriate Purchase Order number, the service location(s) and the type of service provided to the County in the prior month.
- 29. SALES TAX:** The County is exempt from paying State or Local Sales Taxes. Consultants should be aware of CONTRACTOR APPLICATION FOR EXEMPTION CERTIFICATE Pursuant to Statute Section 39-26.708(1)(a)(XIX) sales tax exemption for construction and building materials. State tax I.D. # 09-803308-0000, Federal tax I.D. # 84-6000764.
- 30. INSURANCE:**

The Consultant agrees to procure and maintain, during the life of this Agreement, a policy, or policies of insurance against all liability, claims, demands and other obligations assumed by the Consultant, pursuant to Attachment A. Such insurance shall be in addition to any other insurance requirements imposed by this Agreement or by law. The Consultant shall not be relieved of any liability, claims,

demands or other obligations assumed pursuant to Attachment A, by reason of its failure to procure or maintain, during the life of this Agreement, insurance in sufficient amounts, durations, or types.

- B. The Consultant shall procure and maintain, during the life of this Agreement, for itself and any subconsultants, the minimum insurance coverages listed below. Such coverages shall be procured and maintained with forms and insurers acceptable to PPRTA and the County. All coverages shall be continuously maintained to cover all liability, claims, demands and other obligations assumed by the Consultant, pursuant to Attachment A. In the case of a claims-made policy, the necessary retroactive dates and extended reporting periods shall be procured to maintain such continuous coverage. Notwithstanding the foregoing, when the Consultant requires a subconsultant to obtain insurance coverage, the types and minimum limits of this coverage may be different than those required, as stated herein for the Consultant.

- a. The certificate of insurance provided by the Consultant shall be completed by the Consultant's insurance agent as evidence that policies providing the required coverages, conditions and minimum limits are in full force and effect and **shall be reviewed and approved by PPRTA and the County prior to commencement of the Agreement**. No other form of certificate shall be used. The certificate shall identify this Agreement and the coverages afforded under the policies. **The certificate of insurance must be on file with PPRTA and the County prior to commencement of the Agreement**. The completed certificate of insurance shall be named and sent to:

El Paso County

- b. It is the affirmative obligation of the Consultant to notify the County's Contract Specialist, as provided in this Agreement, including e-mailing (PURCOI@elpasoco.com) a copy of the notice to the Contracts and Procurement Division, within two (2) business days of the cancellation or substantive change to any insurance policy required under this Agreement, and failure to do so shall constitute a breach of this Agreement.
- c. Failure on the part of the Consultant to procure or maintain policies providing the required coverages, conditions and minimum limits shall constitute a material breach of contract upon which PPRTA and the County may immediately terminate this Agreement or, at its discretion, the County may procure or renew any such policy or any extended reporting period thereto and may pay any and all premiums in connection therewith, and all monies so paid by PPRTA and the County shall be repaid by Consultant to PPRTA and the County upon demand, or PPRTA and the County may offset the cost of the premiums against any monies due to Consultant from PPRTA and the County.
- d. PPRA and the County reserves the right to request and receive a certified copy of any policy and any endorsement thereto.

The successful Consultant will have the resources to implement a PMS including all labor, materials, and equipment necessary to evaluate the condition of the County's paved roadway network. The current network is maintained by the El Paso County Department of Public Works ("DPW") as described in this solicitation.

It is expected that the business and their team members have significant experience with this type of project. It is expected that the individuals overseeing and managing this project are licensed professionals. The successful Consultant shall be considered and shall remain an independent contractor throughout the term of any contract awarded pursuant to this Solicitation.

The successful Consultant shall be solely responsible for scheduling and coordinating work of the sub-consultants, suppliers, and other individuals or entities performing or furnishing any of the work under direct or indirect contract with the successful Consultant.

The successful Consultant shall provide and assume full responsibility for all services, materials, equipment, labor, transportation, construction equipment and machinery, tools, appliances, fuel, temporary facilities, and all other facilities and incidentals necessary for performance, testing, start up, and completion of the services outlined in this Solicitation.

A. Background

El Paso County is home to a mix of urban and rural development encompassing more than 2,130 square miles of land area. DPW maintains around 2,203 centerline miles of roads and bridges. This figure includes around 1,156 centerline miles of paved roads (2,362 lane miles of paved roads) and 1,047 centerline miles of gravel roads, the latter of which will not be a part of the County's Pavement Management System. While there are urban pockets that are growing fast, the largest part of the county is more rural. The department typically performs two inch or three-inch overlays or chip seals on our roadways. Other treatment types have been trialed but not regularly implemented. The department would be open to adding additional or trial treatments to the pavement management system.

DPW owns, operates, and maintains a wide variety of assets that serve a population of about 200,000 people. DPW has a staff of 230 full-time equivalents ("FTEs").

DPW began an effort in early 1997 to establish a pavement management system. After several months of software and engineering service evaluation, the County chose Stantec Consulting Inc., of Phoenix, AZ, to provide pavement management software and implementation services. The Department started with the Pavement Management Application management software version 1.43 Release H. In 2021, the Department updated Stantec's RoadMatrix software. The Department is currently using Stantec's RoadMatrix pavement management software version 7.0.0 with RoadMatrix database version 6.0.0, hosted on an SQL database server, version 2019.

DPW currently uses the Pavement Quality Index (PQI) methodology for asphalt pavement rating. Vendors may propose either the PQI method or Pavement Condition Index (PCI) method

F. SOFTWARE IMPLEMENTATION

Among other scope of work items, the County is seeking a Consultant to provide services necessary to implement a pavement management supporting software system within the department. The services are expected to include the following components.

- Business practice review and process improvement. The Consultant shall lead sessions aimed at understanding and documenting the County's current pavement management practices versus best practices, identify gaps, and provide recommendations for improving business processes coupled with required software configuration to better leverage system capabilities.
- Engineering configuration. The selected Consultant shall develop engineering input for the software to analyze pavement work routines and performance. This would include decision rules, performance models, treatment definitions and costs, degradation curves, and any other necessary parameters to fully configure the software being implemented.
- Network budget and performance metric optimization analysis. The Consultant shall provide the County with support to setup and run network budget and performance metric optimization models and prepare standard analysis types needed to support the pavement management program processes being implemented.
- Reporting support. The Consultant shall assist the County with developing and implementing needed reporting from the pavement management software to support all levels of stakeholder needs within the department. This may involve the use of newly developed and/or built-in reports included in the software being implemented. Program "dashboard" capabilities are required under this deployment. Software should support integration and/or data analysis using Crystal Reports, Power BI and ArcGIS Online Dashboards.
- System Testing. The Consultant shall be responsible for ensuring the system is installed, tested and functioning according to specifications and owner requirements as agreed upon in the system requirements.
- Training. The Consultant shall prepare a training plan and related materials for review and approval by the EPC PM. End-user training will be provided in accordance with the approved training plan.
- Rehabilitation Selection. The Consultant shall assist the County in creating the preliminary 2024 Resurfacing list by the end of September 2023.

G. PERFORMANCE OF THE SYSTEM

The selected engineering Consultant shall be capable of providing the County with a seamless, turn-key implementation of pavement management software meeting the requirements outlined below along with training and on-going engineering technical support:

- Software shall provide the ability to integrate with Cityworks, ArcGIS Online, Power BI and Crystal Reports at a minimum. Require a Consultant hosted web-based application accessible from the latest versions of Google Chrome, Firefox and/or Microsoft Edge Browsers. This Consultant hosted web-based app shall be accessible to EPC during the RFP review process.
- Be highly configurable to allow refinement in the future and expansion to other asset types. As such, the software must provide the capability of being configured to be a tightly integrated, broader infrastructure asset management system utilizing the same software without the need for interfaces of any kind after the full system integration is initialized and completed.
- Provide an estimate of storage requirements of the data collection survey. Provide an option to store this data with the vendor, or approved partner on a Cloud service, to include annual cost. Convert that

data to user-defined, modifiable condition indices capable of driving performance prediction and decision-making processes. On premise solutions will be considered but cloud is preferred. If cloud solution is chosen, then solution should have the ability to export raw analysis data.

- Consultant must provide evidence that the solution meets industry best practices for providing reasonable information security measures (e.g., SOC 2 certification or FEDRAMP certification).
- All County data which constitutes sensitive information (e.g., PII) must be encrypted at rest and in transit using FIPS 140-2 compliant encryption algorithms.
- Solution should support integration into the County Identity Provider Service, Azure for user identification and authentication purposes. Secure authentication protocols such as SAMLv2 are to be used wherever technically feasible.
- Final solution design documentation including but not limited to high-level data flow diagrams, network diagrams, and other related information security-relevant documentation that describes the security of the proposed solution must be provided as part of the contract bid.
- Have a flexible data structure that will allow for adding additional attributes to existing data sets and creating new sets for expanded data types without requiring additional software development.
- Provide a broad set of pavement distress types. The software must allow for user-defined condition data including the ability to collect pavement distress data captured via severity and extent measurement.
- Provide a broad set of pavement treatment strategies to address maintenance, preservation, rehabilitation and reconstruction requirements.
- Provide deterioration models using condition indices.
- Provide flexibility in creating decision trees, pavement maintenance, preservation, rehabilitation and reconstruction repair strategies and performance models. These are to be based on user-defined decision and performance variables available within the database. In addition, those criteria should be modifiable in the future without requiring the compiled code of the system to be modified.
- Provide the capability to run user defined multi-constraint budget scenarios analyses for various “what if” scenarios for determining the best possible use of funding necessary to meet one or more constraints. The County maintains a large network with many needs and has a variety of complex factors that must be considered in developing the most cost-effective budget and work plan to meet long-term performance goals. As such, it is imperative for the County to ensure that a scenario will easily and accurately consider more than one constraint in an analysis. When running multi-constraint scenarios, user-defined constraints shall include but not be limited to:
 - Annual Budgets
 - Budgets by repair type (preservation, rehabilitation, reconstruction)
 - Target Condition Index, either by forecast year or budget, as defined by the user
 - Unconstrained Budget
 - Do Nothing
- Provide unique multi-year work plans that identify the type of repair and associated costs for all pavement segments for each year of the analysis period for any funding or performance-goal setting scenario.
- Provide a construction history window that allows for storage of all construction projects and can be configured to meet user-defined functionality. When construction activities are entered, the software must be able to automatically update all individual pavement condition indices based on construction history data.
- The system should allow for user defined and configured treatments including the capability to specify
 - Flexible cost calculations allowing for customizable unit cost expressions.
 - Post treatment condition effects that can change the condition of all modeled condition indicators and post treatment deterioration models.
 - Capability to also have treatments change other pavement attributes not directly related to conditions, e.g. curb reveal, count of seal coats applied etc.
- Allow for the linking or storing of electronic documents and images including photos, construction documents, testing results, etc. related to each specific pavement management section. Attachments should be accomplished in GIS or Cityworks so that the data is available to all staff.

- Provide standard report capabilities including configurable graphs, charts and GIS mapping and the ability to develop customized reports within the application.
- Provide a dynamic link for real time analysis and integration of results into other applications without the need for manual file exports and data transfers.

H. DATA COLLECTION TECHNICAL REQUIREMENTS

- The Department of Public Works is currently using the Road Matrix version 7.0.0 pavement management software. It is anticipated that some historical pavement data from EPC's current system will be incorporated into the new system.
- Information Provided by El Paso County. The Department will provide the necessary data to ensure successful completion of the data collection project. A preliminary map is provided with this RFP (pdf file attached). The County is continuously updating the database to include new roads. The successful bidder shall request a final map prior to starting data collection. An electronic map in GIS format and an electronic database will also be provided to the successful bidder, after successful bidder signs the County's Data License agreement for the release of electronic data.
 - The Data License agreement is available online at: http://adm2.elpasoco.com/infosvcs/gis/docs/Geospatial_Data_License_Agreement_Contractor.pdf

Overview of Survey Requirements. Data is to be collected on approximately 1156 miles or 2,362 lane miles of flexible asphalt pavements consisting of approximately 7209 unique sections (PMA ID's). Final mileage may be modified by the County between RFP. This mileage is greater than the actual centerline mileage because of roads with sections divided by grass or raised medians. These roadway sections will have two (2) records, one for each direction of travel. For bidding purposes, the total number of test miles should be 1156. All roadways are within unincorporated EPC. Roadways are a combination of local, collector, and arterial functional classes, both rural and urban. Detailed data for three pavement indices are to be collected: surface distress, roughness, and pavement width. A comprehensive surface distress survey shall utilize objective data collection methods. The Consultant shall utilize an objective roughness survey of designated road segments. Roughness data, surface distress data, pavement width, and digital images shall be collected by the Consultant simultaneously on all paved roads.

I. ROAD DATA COLLECTION SERVICES

- **Existing Section Referencing System**
 - Referencing Methodology. The pavement management database has been sectioned for use in the RoadMatrix application. The Consultant will use the existing section referencing scheme for reporting of all data collected. Road sections in general were constructed on an intersection-to-intersection basis and limited to one mile in length.
 - Section Numbering. Sections are numbered sequentially based on continuous road name using a unique PMA ID within RoadMatrix and GIS. The Department will provide the PMAID, road name and from-to extents for each section, to the successful bidder.
 - The department would consider a restructuring of the segments if it can be proven to be beneficial to the County's overall PMS needs.
- **Surface Distress Survey**
 - Sections to be Surveyed. The Consultant will conduct a surface distress survey on all paved and maintained sections within the County's road network. An updated map and tabular listing of paved and maintained sections shall be provided.
 - Survey Interval. The Consultant shall indicate their proposed surface distress collection interval and proposed roadway coverage plan. The Consultant will provide an explanation of proposed methodology for surveying roads with multiple lanes in each direction of travel.

- Distress Types. The Consultant shall collect surface distress data that can be managed in the proposed PMS configuration and database format.
- For flexible pavements, the following distresses shall be collected: Wheel Path Rutting, Transverse Cracking, Patching, Edge Cracking, Excessive Crown, Map Cracking, Rippling, Pavement Distortion, Potholes, Flushing – Bleeding, Alligator Cracking, Raveling, and Longitudinal Cracking. Surface distress data shall have the severity and extent for each distress type. NOTE: El Paso County does not own or maintain any concrete pavements.
- If any of the preceding distresses cannot be collected by the Consultant, a statement shall be included with the bid explaining the reason for the deficiency. Any additional distresses the bidder feels relevant to the successful operation of the pavement management system are welcome to be included in the bid, as an option, as long as they are compatible with the existing software.
- Distress Measurement. Bidders shall indicate in their bid their proposed methodology to quantify surface distress and how they match the existing pavement management system.
- **Roughness Survey**
 - Sections to Be Surveyed. The Consultant shall conduct a roughness survey on all paved and maintained sections within the County's Road network for roughness. A map and tabular listing of paved and maintained sections would be provided.
 - Survey Interval. The Consultant shall indicate their proposed roughness survey interval and proposed roadway coverage plan with their bid. The bidder will provide an explanation of proposed methodology for surveying roads with multiple lanes in each direction of travel. Continuous data sampling submitted in 100-foot intervals is the preferred survey interval.
 - Survey Methodology. The Consultant shall undertake an objective measured roughness survey of all paved and maintained streets. Roughness data must meet the specifications of the International Roughness Index (IRI) and utilize a laser-based Class II profiler as designated by the Federal Highway Administration. Roughness data must be station specific for each section and must correspond to the station intervals used in the surface distress survey. The Consultant shall indicate the longitudinal sampling rate, wheel path, travel lane and direction of travel for roughness data collection.
- **Digital Images and Spatial Referencing**
 - Image Size and Spatial Referencing. Digital images shall be collected and delivered to El Paso County in .jpg format on external hard drives with USB 2.0 or 3.0 interface or Consultant may propose cloud-based server. The images shall be a minimum of 24-bit color, 80 percent .jpg quality, and have a minimum size of 24 megapixels. The horizontal aspect will achieve a minimum of 120-degree viewing angle. Photographs will be taken every 15 feet, or more frequently. Images shall be stored in individual folders by road segment (PMA ID), and properly sequenced through a file naming schema that includes the PMA ID and identifying frame number in the file name.
 - ROW Images. Images shall be captured in both travel directions for each roadway segment. The Consultant shall clearly capture pavement cracks, medians, gutters, curbs, up to four lanes of traffic (same direction and opposing), road surface on vertical and horizontal curves, and road signs within right-of-way on same side of roadway as collection vehicle. Camera should not be zoomed in too far.
 - Example Images. Consultant must provide example ROW images from EPC roads to County, and County must approve camera/image settings prior to Consultant commencing on data collection.
 - Images must be compatible with proposed PMS, which includes submitting the image table in the proper format.
 - Ownership of Images. El Paso County shall maintain all ownership and maintain all rights to the images. The images shall not require the use of any proprietary software for viewing, copying, or printing. The images may be loaded onto an El Paso County hard drive or proposed cloud-based server. Cloud-based storage fees shall be outlined in the fee proposal.
- **Data Deliverables**
 - Pilot Field Survey Data. The Consultant shall complete and submit a 50-mile surface distress, roughness survey, pavement width, and digital images prior to continuing with the full data collection assignment. The County shall select the pilot survey area. The Consultant must meet

all requirements of final data delivery and acceptance in order to pass the pilot and receive payment for the pilot. El Paso County reserves the right to terminate the data collection award should the Consultant's pilot data not conform to the requirements of final data delivery and acceptance. All pilot deliverables must be submitted and approved prior to commencing on remainder of network, and to receive payment for pilot data.

- Field Survey Data. The Consultant shall deliver surface distress, ride condition (roughness) data, pavement width, and digital images for each of the County-specified sections in the centerline network. Data shall be provided by Consultant in a format that will allow direct loading into the existing pavement management system. The Consultant may also propose cloud-based storage and associated costs. This shall include the Consultant moving the existing data into the "Performance History" tab. The County will perform no de-bugging or data manipulation. Data that is incompatible, unreadable, corrupt, or otherwise unusable in its native format will not be accepted.
- Media. The Consultant shall deliver data on an external hard drive with USB 2.0 or 3.0 interface such that it can be copied directly from the USB drive to the County server. The Consultant must guarantee the delivered media to be virus free.
- **Acceptance**
 - Pilot Data. Pilot data will be subjected to the following tests of reasonableness:
 - Processing the data to determine the present condition score for the individual distresses by type, and sectional surface distresses and roughness within each roadway segment.
 - Reviewing the Consultant data against selected County-collected data and actual field observations.
 - Ease of loading the information onto our server.

If complete agreement between the pilot data and benchmark data is achieved, then authorization will be given by the County for the Consultant to complete the survey of the remaining sections. However, if close agreement is not achieved, the Consultant shall be required to resubmit the pilot data. If close agreement cannot be achieved on the re-submitted pilot data (pilot data can only be re-submitted once), the survey will be terminated, and the pilot data rejected without payment.

J. OPTION ITEMS

- The County also requests an assessment of the curb and gutter infrastructure as well. Data collection shall be completed in a manner that does not impact public travel. Curb and gutter shall be assessed similar to the pavement, providing data for evaluation and recommendations for replacement working in conjunction with pavement management planning. The pavement and curb/gutter condition survey should be completed using automated data collection equipment, i.e., downward imaging technology. No sampling is allowed. All captured condition data should be georeferenced and should be linked to the County's GIS database.
- The department maintains about 768 lane miles of curb and gutter.

General Instructions Section references are to the Internal Revenue Code unless otherwise noted. Future developments. The IRS has created a page on www.irs.gov/w9 for information about Form W-9, at www.irs.gov/w9 . Information about any future developments affecting Form W-9 (such as legislation enacted after we release it) will be posted on that page. Purpose of Form A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, payments made to you in settlement of payment card and third party network transactions, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA. Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to: 1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued), 2. Certify that you are not subject to backup withholding, or 3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income, and 4. Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct. Note. If you are a U.S. person and a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9. Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are: • An individual who is a U.S. citizen or U.S. resident alien, • A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States, • An estate (other than a foreign estate), or • A domestic trust (as defined in Regulations section 301.7701-7). Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax under section 1446 on any foreign partners' share of effectively connected taxable income from such business. Further, in certain cases where a Form W-9 has not been received, the rules under section 1446 require a partnership to presume that a partner is a foreign person, and pay the section 1446 withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid section 1446 withholding on your share of partnership income.		

In the cases below, the following person must give Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States:

- In the case of a disregarded entity with a U.S. owner, the U.S. owner of the disregarded entity and not the entity,
- In the case of a grantor trust with a U.S. grantor or other U.S. owner, generally, the U.S. grantor or other U.S. owner of the grantor trust and not the trust, and
- In the case of a U.S. trust (other than a grantor trust), the U.S. trust (other than a grantor trust) and not the beneficiaries of the trust.

Foreign person. If you are a foreign person or the U.S. branch of a foreign bank that has elected to be treated as a U.S. person, do not use Form W-9. Instead, use the appropriate Form W-8 or Form 8233 (see Publication 515, Withholding of Tax on Nonresident Aliens and Foreign Entities).

Nonresident alien who becomes a resident alien. Generally, only a nonresident alien individual may use the terms of a tax treaty to reduce or eliminate U.S. tax on certain types of income. However, most tax treaties contain a provision known as a "saving clause." Exceptions specified in the saving clause may permit an exemption from tax to continue for certain types of income even after the payee has otherwise become a U.S. resident alien for tax purposes.

If you are a U.S. resident alien who is relying on an exception contained in the saving clause of a tax treaty to claim an exemption from U.S. tax on certain types of income, you must attach a statement to Form W-9 that specifies the following five items:

1. The treaty country. Generally, this must be the same treaty under which you claimed exemption from tax as a nonresident alien.
2. The treaty article addressing the income.
3. The article number (or location) in the tax treaty that contains the saving clause and its exceptions.
4. The type and amount of income that qualifies for the exemption from tax.
5. Sufficient facts to justify the exemption from tax under the terms of the treaty article.

Example. Article 20 of the U.S.-China Income tax treaty allows an exemption from tax for scholarship income received by a Chinese student temporarily present in the United States. Under U.S. law, this student will become a resident alien for tax purposes if his or her stay in the United States exceeds 5 calendar years. However, paragraph 2 of the first Protocol to the U.S.-China treaty (dated April 30, 1984) allows the provisions of Article 20 to continue to apply even after the Chinese student becomes a resident alien of the United States. A Chinese student who qualifies for this exception (under paragraph 2 of the first protocol) and is relying on this exception to claim an exemption from tax on his or her scholarship or fellowship income would attach to Form W-9 a statement that includes the information described above to support that exemption.

If you are a nonresident alien or a foreign entity, give the requester the appropriate completed Form W-8 or Form 8233.

What is backup withholding? Persons making certain payments to you must under certain conditions withhold and pay to the IRS a percentage of such payments. This is called "backup withholding." Payments that may be subject to backup withholding include interest, tax-exempt interest, dividends, broker and barter exchange transactions, rents, royalties, nonemployee pay, payments made in settlement of payment card and third party network transactions, and certain payments from fishing boat operators. Real estate transactions are not subject to backup withholding.

You will not be subject to backup withholding on payments you receive if you give the requester your correct TIN, make the proper certifications, and report all your taxable interest and dividends on your tax return.

Payments you receive will be subject to backup withholding if:

1. You do not furnish your TIN to the requester,
2. You do not certify your TIN when required (see the Part II Instructions on page 3 for details),
3. The IRS tells the requester that you furnished an incorrect TIN,
4. The IRS tells you that you are subject to backup withholding because you did not report all your interest and dividends on your tax return (for reportable interest and dividends only), or
5. You do not certify to the requester that you are not subject to backup withholding under 4 above (for reportable interest and dividend accounts opened after 1983 only).

Certain payees and payments are exempt from backup withholding. See *Exempt payee code* on page 3 and the separate instructions for the Requester of Form W-9 for more information.

Also see *Special rules for partnerships* on page 1.

What is FATCA reporting? The Foreign Account Tax Compliance Act (FATCA) requires a participating foreign financial institution to report all United States account holders that are specified United States persons. Certain payees are exempt from FATCA reporting. See *Exemption from FATCA reporting code* on page 3 and the instructions for the Requester of Form W-9 for more information.

Updating Your Information

You must provide updated information to any person to whom you claimed to be an exempt payee if you are no longer an exempt payee and anticipate receiving reportable payments in the future from this person. For example, you may need to provide updated information if you are a C corporation that elects to be an S corporation, or if you no longer are tax exempt. In addition, you must furnish a new Form W-9 if the name or TIN changes for the account, for example, if the grantor of a grantor trust dies.

Penalties

Failure to furnish TIN. If you fail to furnish your correct TIN to a requester, you are subject to a penalty of \$50 for each such failure unless your failure is due to reasonable cause and not to willful neglect.

Civil penalty for false information with respect to withholding. If you make a false statement with no reasonable basis that results in no backup withholding, you are subject to a \$500 penalty.

Criminal penalty for falsifying information. Willfully falsifying certifications or affirmations may subject you to criminal penalties including fines and/or imprisonment.

Misuse of TINs. If the requester discloses or uses TINs in violation of federal law, the requester may be subject to civil and criminal penalties.

Specific Instructions

Name

If you are an individual, you must generally enter the name shown on your income tax return. However, if you have changed your last name, for instance, due to marriage without informing the Social Security Administration of the name change, enter your first name, the last name shown on your social security card, and your new last name.

If the account is in joint names, list first, and then circle, the name of the person or entity whose number you entered in Part I of the form.

Sole proprietor. Enter your individual name as shown on your income tax return on the "Name" line. You may enter your business, trade, or "doing business as (DBA)" name on the "Business name/disregarded entity name" line.

Partnership, C Corporation, or S Corporation. Enter the entity's name on the "Name" line and any business, trade, or "doing business as (DBA)" name on the "Business name/disregarded entity name" line.

Disregarded entity. For U.S. federal tax purposes, an entity that is disregarded as an entity separate from its owner is treated as a "disregarded entity." See Regulation section 301.7701-2(c)(2)(ii). Enter the owner's name on the "Name" line. The name of the entity entered on the "Name" line should never be a disregarded entity. The name on the "Name" line must be the name shown on the income tax return on which the income should be reported. For example, if a foreign LLC that is treated as a disregarded entity for U.S. federal tax purposes has a single owner that is a U.S. person, the U.S. owner's name is required to be provided on the "Name" line. If the direct owner of the entity is also a disregarded entity, enter the first owner that is not disregarded for federal tax purposes. Enter the disregarded entity's name on the "Business name/disregarded entity name" line. If the owner of the disregarded entity is a foreign person, the owner must complete an appropriate Form W-8 instead of a Form W-9. This is the case even if the foreign person has a U.S. TIN.

Note. Check the appropriate box for the U.S. federal tax classification of the person whose name is entered on the "Name" line (individual/sole proprietor, Partnership, C Corporation, S Corporation, Trust/Estate).

Limited Liability Company (LLC). If the person identified on the "Name" line is an LLC, check the "Limited liability company" box only and enter the appropriate code for the U.S. federal tax classification in the space provided. If you are an LLC that is treated as a partnership for U.S. federal tax purposes, enter "P" for partnership. If you are an LLC that has filed a Form 8832 or a Form 2553 to be taxed as a corporation, enter "C" for C corporation or "S" for S corporation, as appropriate. If you are an LLC that is disregarded as an entity separate from its owner under Regulation section 301.7701-3 (except for employment and excise tax), do not check the LLC box unless the owner of the LLC (required to be identified on the "Name" line) is another LLC that is not disregarded for U.S. federal tax purposes. If the LLC is disregarded as an entity separate from its owner, enter the appropriate tax classification of the owner identified on the "Name" line.

Other entities. Enter your business name as shown on required U.S. federal tax documents on the "Name" line. This name should match the name shown on the charter or other legal document creating the entity. You may enter any business, trade, or DBA name on the "Business name/disregarded entity name" line.

Part I. Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. If you are a resident alien and you do not have and are not eligible to get an SSN, your TIN is your IRS individual taxpayer identification number (ITIN). Enter it in the social security number box. If you do not have an ITIN, see *How to get a TIN* below.

If you are a sole proprietor and you have an EIN, you may enter either your SSN or EIN. However, the IRS prefers that you use your SSN.

If you are a single-member LLC that is disregarded as an entity separate from its owner (see *Limited Liability Company (LLC)* on page 2), enter the owner's SSN (or EIN, if the owner has one). Do not enter the disregarded entity's EIN. If the LLC is classified as a corporation or partnership, enter the entity's EIN.

Note. See the chart on page 4 for further clarification of name and TIN combinations.

How to get a TIN. If you do not have a TIN, apply for one immediately. To apply for an SSN, get Form SS-5, Application for a Social Security Card, from your local Social Security Administration office or get this form online at www.ssa.gov. You may also get this form by calling 1-800-772-1213. Use Form W-7, Application for IRS Individual Taxpayer Identification Number, to apply for an ITIN, or Form SS-4, Application for Employer Identification Number, to apply for an EIN. You can apply for an EIN online by accessing the IRS website at www.irs.gov/businesses and clicking on Employer Identification Number (EIN) under Starting a Business. You can get Forms W-7 and SS-4 from the IRS by visiting IRS.gov or by calling 1-800-TAX-FORM (1-800-829-3676).

If you are asked to complete Form W-9 but do not have a TIN, apply for a TIN and write "Applied For" in the space for the TIN, sign and date the form, and give it to the requester. For interest and dividend payments, and certain payments made with respect to readily tradable instruments, generally you will have 60 days to get a TIN and give it to the requester before you are subject to backup withholding on payments. The 60-day rule does not apply to other types of payments. You will be subject to backup withholding on all such payments until you provide your TIN to the requester.

Note. Entering "Applied For" means that you have already applied for a TIN or that you intend to apply for one soon.

Caution: A disregarded U.S. entity that has a foreign owner must use the appropriate Form W-8.

Part II. Certification

To establish to the withholding agent that you are a U.S. person, or resident alien, sign Form W-9. You may be requested to sign by the withholding agent even if items 1, 4, or 5 below indicate otherwise.

For a joint account, only the person whose TIN is shown in Part I should sign (when required). In the case of a disregarded entity, the person identified on the "Name" line must sign. Exempt payees, see *Exempt payee code* earlier.

Signature requirements. Complete the certification as indicated in items 1 through 5 below.

1. Interest, dividend, and barter exchange accounts opened before 1984 and broker accounts considered active during 1983. You must give your correct TIN, but you do not have to sign the certification.

2. Interest, dividend, broker, and barter exchange accounts opened after 1983 and broker accounts considered inactive during 1983. You must sign the certification or backup withholding will apply. If you are subject to backup withholding and you are merely providing your correct TIN to the requester, you must cross out item 2 in the certification before signing the form.

3. Real estate transactions. You must sign the certification. You may cross out item 2 of the certification.

4. Other payments. You must give your correct TIN, but you do not have to sign the certification unless you have been notified that you have previously given an incorrect TIN. "Other payments" include payments made in the course of the requester's trade or business for rents, royalties, goods (other than bills for merchandise), medical and health care services (including payments to corporations), payments to a nonemployee for services, payments made in settlement of payment card and third party network transactions, payments to certain fishing boat crew members and fishermen, and gross proceeds paid to attorneys (including payments to corporations).

5. Mortgage interest paid by you, acquisition or abandonment of secured property, cancellation of debt, qualified tuition program payments (under section 529), IRA, Coverdell ESA, Archer MSA or HSA contributions or distributions, and pension distributions. Secure Your Tax Records from Identity Theft

Identity theft occurs when someone uses your personal information such as your name, social security number (SSN), or other identifying information, without your permission, to commit fraud or other crimes. An identity thief may use your SSN to get a job or may file a tax return using your SSN to receive a refund.

To reduce your risk:

- Protect your SSN.
- Ensure your employer is protecting your SSN, and
- Be careful when choosing a tax preparer.

If your tax records are affected by identity theft and you receive a notice from the IRS, respond right away to the name and phone number printed on the IRS notice or letter.

If your tax records are not currently affected by identity theft but you think you are at risk due to a lost or stolen purse or wallet, questionable credit card activity or credit report, contact the IRS Identity Theft Hotline at 1-800-908-4490 or submit Form 14039.

For more information, see Publication 4535, Identity Theft Prevention and Victim Assistance.

Victims of identity theft who are experiencing economic harm or a system problem, or are seeking help in resolving tax problems that have not been resolved through normal channels, may be eligible for Taxpayer Advocate Service (TAS) assistance. You can reach TAS by calling the TAS toll-free case intake line at 1-877-777-4778 or TTY/TDD 1-800-829-4059.

Protect yourself from suspicious emails or phishing schemes. Phishing is the creation and use of email and websites designed to mimic legitimate business emails and websites. The most common act is sending an email to a user falsely claiming to be an established legitimate enterprise in an attempt to scam the user into surrendering private information that will be used for identity theft.

The IRS does not initiate contacts with taxpayers via emails. Also, the IRS does not request personal detailed information through email or ask taxpayers for the PIN numbers, passwords, or similar secret access information for their credit card, bank, or other financial accounts.

If you receive an unsolicited email claiming to be from the IRS, forward this message to phishing@irs.gov. You may also report misuse of the IRS name, logo, or other IRS property to the Treasury Inspector General for Tax Administration at 1-800-368-4484. You can forward suspicious emails to the Federal Trade Commission at: spam@uce.gov or contact them at www.ftc.gov/idtheft or 1-877-IDTHEFT (1-877-438-4338).

Visit IRS.gov to learn more about identity theft and how to reduce your risk.

I. Compliance with Laws/Licenses and Permits. The Consultant shall comply with all applicable federal, state and local laws, ordinances, regulations, and resolutions. The Consultant shall be responsible for obtaining all licenses and permits necessary to perform the scope of services, at the Contractor's expense, unless specifically stated otherwise in this Agreement.

J. No Waiver of Rights. The County's or PPRTA's approval or acceptance of, or payment for, services shall not be construed to operate as a waiver of any rights or benefits to be provided under this Agreement. No covenant or term of this Agreement shall be deemed to be waived by the County or by PPRTA except in writing signed by the Board of County Commissioners and the Board of PPRTA or by persons authorized to sign by resolution of the County Board or the PPRTA Board, and any waiver of a right shall not be construed to be a waiver of any other right or to be a continuing waiver, unless specifically so stated.

Pursuant to Article X, Section 20 of the Colorado Constitution and C.R.S. § 29-1-110, as amended, the financial obligations of the County as set forth herein after the current fiscal year are contingent upon funds for that purpose being appropriated, budgeted and otherwise available. In addition to any other remedies provided for in this Agreement, and without limiting its remedies available at law, the County and PPRTA may exercise the following remedial actions if the Consultant substantially fails to satisfy the duties and obligations in this Agreement. Substantial failure to satisfy the duties and obligations shall mean significant insufficient, incorrect, or improper performance, activities, or inactions by the Contractor. These remedial actions are as follows:

(1) Suspend Contractor's performance pending necessary corrective action as specified by the County and PPRTA without the Contractor's entitlement to an increase in price/cost or a time extension; and/or

(3) Deny payment for those services which have not been satisfactorily performed, or which, due to circumstances caused by the Contractor, cannot be performed, or if performed would be of no value to the County or PPRTA.

The foregoing remedial actions are cumulative and the County and PPRTA, at their sole discretion, may exercise any or all of them individually or simultaneously. The County and PPRTA shall provide written notice to Consultant of its exercise of any of the foregoing remedial actions.

N. Force Majeure. Neither the Contractor, the County, nor PPRTA shall be liable for any delay in, or failure of performance of, any covenant or promise contained in this Agreement, nor shall any delay or failure constitute default or give rise to any liability for damages if, and only to extent that, such delay or failure is caused by “force majeure.” As used in this Agreement, “force majeure” means acts of God, acts of the public enemy, unusually severe weather, fires, floods, epidemics, quarantines, strikes, labor disputes and freight embargoes, to the extent such events were not the result of, or were not aggravated by, the acts or omissions of the non-performing or delayed party.
