WITH SUCH PUBLIC SAFETY SALES AND USE TAX BEING COLLECTED, ADMINISTERED AND ENFORCED PURSUANT TO EL PASO COUNTY BOARD OF COUNTY COMMISSIONERS RESOLUTION NOS. 12-309 AMENDED AND 26 - 249?

Summary of Written Comments FOR Ballot Issue 1A:

County Issue 1A renews the existing 0.23 percent public safety sales tax through January 1, 2037. It does not create a new tax and does not raise the tax rate. The same dedicated rate voters previously approved would continue, with revenue limited to specified public safety purposes.

The tax is a continuation of a dedicated funding source that may only be used for county public safety operations. It supports law enforcement staffing, training, and equipment; jail operations and staffing; criminal investigations and extraditions; communications and technology that wear out or become obsolete; vehicles and operational supplies; and

wildland fire staffing, equipment, and emergency response. These are core county responsibilities that grow as the county grows.

The Public Safety Tax serves everyone. Whether you live in a city, a town, or an unincorporated area, you rely on countywide safety infrastructure. Jail operations in particular are vital to supporting all law enforcement agencies. Whether in Colorado Springs, Falcon, Fountain, Monument, or elsewhere in the county, all law enforcement agencies rely on the El Paso County jail after an arrest.

This renewal also increases accountability. It requires the Office of the Sheriff to report revenue and expenditures annually to the public at a Board of County Commissioners hearing. That is a stronger, more direct line of oversight rather than an obscure process few residents ever see.

If the tax is not renewed, those costs would still exist and would have to be absorbed by other county revenues or by reducing funding to other services.

Finally, this tax is not permanent. It is subject to future renewals. Voters keep the last word. If the Sheriff's Office delivers, the community can decide whether to continue the tax. That sunset-and-renewal structure is how a growing county funds core safety work without writing a blank check.

A yes vote on County Issue 1A continues a funding tool voters have already used to staff the jail that serves agencies across the county, support patrol and investigations, and maintain wildland fire and emergency response capacity. Vote Yes on 1A to keep El Paso County safe.

Summary of Written Comments FOR Ballot Issue 2A:

Manitou Springs is asking voters to do something simple and fair: apply the same tax rate to amusement tickets that already applies to every other taxable purchase in the city.

Right now, almost every taxable purchase in Manitou Springs is taxed at 9.03%. But amusement site entry fees are taxed at just 5%. That gap has no sound policy basis. It is an inconsistent loophole that has never been closed.

A YES vote aligns the amusement tax rate with the city's general sales tax rate of 9.03%. It is not a new tax. It simply asks customers of one sector to pay the same rate everyone else already pays.

Aligning the amusement tax generates revenue from visitors, not residents. The people who come to Manitou attractions and enjoy our parks, our trails, and our downtown will help fund the services that make those high-quality services possible.

Manitou Springs is facing a budget crisis. When neighboring Colorado Springs joined the recreational cannabis market in mid-2025, a significant share of the marijuana tax that Manitou had come to rely on was diverted.

The city responded sensibly, making nearly \$1,300,000 in cuts over the past two years. Those decisions have not been painless. Local government vacancies have not been filled. Job responsibilities have been merged. Maintenance on public facilities has been deferred.

But the budget gap is still not closed. Without some new revenue, the programs that define Manitou Springs as a community - upkeep on our parks, pool and fitness center, preservation of our historic mineral springs, downtown beautification, holiday lighting, Visit Manitou Springs, and the Creative District - face deep cuts or elimination.

The city recently settled its long-running lawsuit with the Pikes Peak Cog Railway, a resolution that will save Manitou Springs tens of millions of dollars over the next 50 years. But that settlement required money from the city's Reserve Fund, which is now significantly below the level at which it should be maintained. The settlement improves our long-term financial picture, but it does not balance today's operating budget.

The projected new revenue from adjusting the Amusement Tax is \$1,128,400 per year - money that would stay in Manitou Springs and go directly to protecting the services our community depends on.

Opponents claim the current Amusement Tax is "fair" because all its revenue goes to the city while some of general sales tax revenues go to the state. That's an argument about government accounting, not fairness.

Fairness is measured at the point of purchase. Every other taxable purchase in Manitou Springs is charged a 9.03% rate. Amusement activities are the sole exception. Tax rates reflect what this community has determined is appropriate for commerce. That rate is 9.03%. Asking amusement activities to meet that standard is not a penalty. It is parity.

Manitou Springs deserves a tax code that applies the same rules the same way across the board. A YES vote delivers that – and protects the community we all love in the process.

Summary of Written Comments AGAINST Ballot Issue 2A:

Vote NO on 2A-the unfair amusement tax increase!

Nearly one year after voters rejected last year's Triple Tax, City Council once again is asking a small group of Manitou businesses to rescue it from financial problems of its own making.

The "tax fairness" argument is based on a fundamentally misleading comparison. Manitou Springs' sales-tax rate is 3.9%-not 9.03%. The 9.03% figure combines taxes imposed by four separate governments: 2.9% for the State of Colorado, 1.23% for El Paso County, 1% for PPRTA and 3.9% for the City. The City's own website confirms this breakdown.

Manitou already collects a higher local tax on amusement admissions (5%) than the 3.9% City sales tax imposed on retail purchases. Raising the amusement tax to 9.03% would make the City's amusement tax equal to the entire combined sales tax imposed by the City, county, state and the PPRTA.

That is not fairness. It's an apples-to-oranges comparison that purposely misleads voters about the Manitou Springs' sales tax rate.

2A is a forever tax with no stated possibility to lower the tax rate in the future. Nor does it specify how the additional revenue will be spent. Just like last year, voters are again being asked to approve unlimited and unrestricted revenue and trust City Council to decide where the money goes. That trust has not been earned.

The City claims it has made \$1.3 million in budget reductions since 2024. However, its own explanation says that figure is measured against initial departmental requests. The City does not identify \$1.3 million in reductions from previously adopted spending, provide a year-by-year accounting, or show that actual expenditures declined by that amount. It also acknowledges that the final 2026 budget outcome will not be known until the 2026 audit is completed in July 2027.

Imposing a high tax rate on a single industry has failed before in Manitou Springs. When Colorado Springs legalized marijuana in 2024, Manitou's marijuana tax revenue declined drastically. At 9.03%, our tax on attractions would be the highest in the Pikes Peak region, causing visitors to spend their vacation dollars elsewhere.

The City's approach to parking provides another warning. Rather than improve its own parking operations, the City tried and failed to consolidate downtown parking under a municipal monopoly. City-controlled parking isn't working for residents or visitors.

When voters rejected last year's amusement-tax increase, they were warned that failure would require serious budget cuts. Those cuts never materialized through the transparent, line-by-line process this financial situation demands. Instead, voters are being presented with another tax increase on the same six local amusement operators.

Council must stop treating tax increases as substitutes for responsible financial management. How can voters have confidence in sending more unrestricted revenue to a City that has not demonstrated that it can manage the revenue it already has?

Manitou Springs residents and businesses deserve transparent budgeting, disciplined spending and genuine cooperation with attractions providers – not higher taxes on visitors. Vote NO on Ballot Issue 2A – the unfair amusement -tax increase!

Summary of Written Comments FOR Ballot Issue 4A:

There are three key reasons D11 voters should approve Measure 4A on our ballot: to raise teachers' salaries, which are much too low; to make the financially sound decision to maintain our school facilities; and to provide students access to modern, 21st-century learning environments.

First, most teachers in Colorado Springs School District 11 are significantly underpaid and struggle to get by. This bond will ensure the district can pay competitive, market-value wages to attract and retain highly effective teachers. If the bond is approved, proceeds will be used to prepay existing lease-purchase obligations, freeing up the Mill Levy Override (MLO) dollars currently dedicated to them. The district has formally committed those MLO revenues to teacher compensation, with the goal of making D11 teacher compensation among the most competitive in the region.

Second, Colorado Springs School District 11's schools are aging, and many major building systems have exceeded their useful lives. Measure 4A would provide \$775 million for capital improvements that cannot be addressed through the district's annual maintenance budget alone.

Aging school buildings waste energy and cost more to maintain. By upgrading facilities, this bond will save money on operating costs in the long run. D11 has not passed a bond since 2006, while the district has accumulated approximately \$800 million in deferred maintenance. The bond will replace failing heating and cooling systems, remove asbestos and other hazardous materials, improve school security, repair roofs and plumbing, renovate classrooms, and allow the district to address major facility needs now rather than continuing to defer repairs that may become more expensive over time. Every school in the district will receive improvements.

Third, by fixing and modernizing aging school facilities, this bond will give students access to 21st-century learning environments, including but not limited to career and technical education spaces to prepare students for careers in healthcare, engineering, skilled trades, and technology.

¹ Excluded from debt are enterprise and annual appropriation obligations.

Because major school renovations and building systems are designed to serve students for decades, bond financing allows those costs to be repaid over time rather than absorbed through the district's approximately \$17 million annual capital budget.

The ballot measure includes accountability provisions requiring bond proceeds to be spent only on voter-approved capital purposes. An independent citizens' oversight committee will review expenditures and provide public reporting on the use of funds.

Summary of Written Comments FOR Ballot Issue 4B:

- We shouldn't be fooled by the Issue 4B ballot language required by TABOR. \$80 million for our schools with no increase to our mill levy is a win for our school district and a win for all of us who pay property taxes in D-12.
- District 12 is once again demonstrating responsible use of taxpayer money by waiting until the district can issue bonds without having to increase our tax rate.
- A yes vote benefits both the school district and the taxpayers.

Tuesday, November 3, 2026

Election Hours:

7:00 AM to 7:00 PM

Hanover School District No. 28 Ballot Issue 4C

SHALL HANOVER SCHOOL DISTRICT NO. 28 TAXES BE INCREASED BY \$231,788 IN TAX YEAR 2026, FOR COLLECTION IN 2027, SUCH DOLLAR AMOUNT BEING THE FIRST FULL FISCAL YEAR INCREASE, AND ANNUALLY THEREAFTER BY WHATEVER AMOUNTS ARE RAISED BY A LEVY OF 4 MILLS UPON EACH DOLLAR OF ASSESSED VALUATION OF ALL TAXABLE PROPERTY WITHIN THE DISTRICT, FOR EDUCATIONAL PURPOSES, INCLUDING:

- FUNDING STAFF COMPENSATION INCLUDING INCREASING BASE SALARY;
- RETAINING AND RECRUITING QUALIFIED TEACHERS AND SUPPORT STAFF; AND
- IMPROVING EMPLOYEE BENEFITS;

AND SHALL SUCH TAX INCREASE BE AN ADDITIONAL PROPERTY TAX MILL LEVY IN EXCESS OF THE LEVY AUTHORIZED FOR THE DISTRICT'S GENERAL FUND, WITHOUT LIMITATION AS TO RATE, PURSUANT TO AND IN ACCORDANCE WITH SECTION 22-54-108, C.R.S.; AND SHALL THE DISTRICT BE AUTHORIZED TO COLLECT, RETAIN AND SPEND ALL REVENUES FROM SUCH TAXES AND THE EARNINGS FROM THE INVESTMENT OF SUCH REVENUES AS A VOTER APPROVED REVENUE CHANGE AND AN EXCEPTION TO THE LIMITS WHICH WOULD OTHERWISE APPLY UNDER ARTICLE X, SECTION 20 OF THE COLORADO CONSTITUTION?

Estimated 2027 fiscal year spending without tax increase	\$ 5,526,666

Information on District's Current Debt

Principal Amount Outstanding Debt:	\$12,485,000
Maximum Annual Repayment Cost:	\$ 938,968
Remaining Total Repayment Cost:	\$19,890,727

Summary of Written Comments FOR Ballot Issue 4C:

- Creates the District's first-ever voter-approved mill levy override — currently Hanover SD28 has none, unlike many neighboring districts
- Directly funds base salary increases, benefits, and staff recruitment/retention — addressing a competitive disadvantage
- Revenue is legally restricted to those purposes; it can't be redirected to construction or administrative overhead without a separate vote
- No bonded debt involved — taxpayers aren't taking on principal, interest, or repayment obligations
- Permanent, stable funding lets the District make long-term compensation commitments rather than relying on year-to-year budget swings
- Revenue scales with assessed valuation over time rather than staying flat

Summary of Written Comments FOR Ballot Issue 6A:

Vote YES on 6A for Faster Emergency Response and Local Accountability.

Peyton is growing rapidly. Our population has increased, leading to a significant rise in 911 calls—over 550 last year alone. Currently, 72% of voters believe our fire risk has increased.

However, Peyton Fire relies almost entirely on volunteers. While their service is valued, it is increasingly difficult to attract and retain volunteers, especially during weekday business hours. Relying on volunteers who must drive to the station before responding to your emergency creates delays.

Issue 6A solves this problem by hiring some full-time firefighter/EMTs. This ensures trained professionals are immediately available to respond to medical emergencies and fires, drastically reducing response times when seconds count.

This measure also addresses critical infrastructure needs. The cost of fire engines has nearly doubled since 2020. This funding will modernize aging facilities and maintain reliable equipment to protect our first responders and residents.

This is a fiscally responsible solution.

The District's mill levy has remained constant since 2006, but our needs and population have changed.

Voters agree that the District spends taxpayer money wisely. The cost is modest: approximately \$33 per year per \$100,000 of a home's market value. Currently, Peyton must often rely on neighboring districts like Falcon for help. Passing 6A reduces our reliance on other communities and ensures Peyton residents receive the professional fire and medical protection we deserve.

Vote YES on 6A to protect our homes, families, and community.

Estimated maximum dollar amount of tax increase for 2027:	\$497,646.00
Estimated 2027 fiscal year spending without tax increase:	\$651,364.07

Summary of Written Comments FOR Ballot Issue 7B:

Elbert Fire Protection District was established in 1978 with a mill levy of 4.575 and has only had one mill levy increase since then (in 2015). Elbert Fire kept the promises made as to how the increase would be spent with 2 fire stations, paid staff and lowering the ISO rate for homeowners (which reduces homeowners' insurance). The district has been able to increase the non-tax income through grants, additional ambulance transport and the increase in building which has brought in additional fees. The district has been very responsible with finances and has been able to make additional improvements without asking for money from the community. Those improvements include, but are not limited to, 2 new tender trucks, a new ambulance, upgrade of essential firefighting equipment and 2 cistern tanks. All of which improves the safety of not only the members of the department but the residents of the district. Now we need to approve a mill levy so they can take the next step in preparing our community for the inevitable growth and possible wildfires. The district needs a new station 1, within the town of Elbert, as the current station is sinking on one side, and cannot accommodate the additional necessary space for the new requirements associated with firefighter safety, growth of equipment and staff. With a new station 1 there will be new community space available to hold meetings and community events. Additionally, there is a need to add another station on the southeast side of the district to cover the growth in the area and shorten response times. Building and equipping new stations is not something the department can do on its own. They need the help of the community in passing the mill levy. Our department is active in the

community, hosting breakfast, spaghetti dinner, the haunted hallway, the annual tree lighting, Easter egg hunt and many more. All while working to be good stewards of the trust placed in them by the community. A yes vote is essential so that the department can continue to thrive for the safety of our community!
