

Unidentified Person

On October 13, 2024, partially skeletonized remains were found in the area of NB I-25 and Bijou St., Colorado Springs, Colorado.

Forensic anthropology examination suggests the decedent was a Male with African population affinity/ancestry, 37-73 years old (mean age of 54 years). Between 5'5" and 6 feet tall.

Forensic Artist reconstruction of John (I-25 Bijou) Doe, EPCCO #24-00960 CSPD #24-386924.

The decedent likely had Degenerative Idiopathic Skeletal Hyperostosis (DISH) and may have suffered from back pain, stiffness, or may have been asymptomatic. DISH is associated with gout, high cholesterol, or diabetes.

Please contact the El Paso County Coroner's Office with any information 719-390-2450 or the Colorado Springs Police Department 719-444-7000.
